

BASIS **Amenity Assured**

I am sure you will be pleased to know that we are part of the BASIS Amenity Assured Scheme and therefore meet the requirements of the Amenity Standard. But what does that mean to you?

Well, for us to display the Amenity Standard logo on this leaflet we had to go through a rigorous independent audit called the BASIS Amenity Assured Scheme. This means that we are meeting industry best practice in the management of amenity spaces, and all our operations are carried out in a safe and responsible way which will help protect the wider environment and ensure the safety of the general public.

BASIS

Amenity Assured

When we are audited by BASIS they check that:

- ✓ All our staff are suitably trained and qualified.
- ✓ We manage amenity spaces in an integrated and environmentally sustainable way.
- ✓ If we do need to use any chemicals, they are applied and stored in a safe and responsible way and in line with government legislation.
- ✓ We constantly review our procedures to ensure we keep improving everything we do.
- ✓ I hope this reassures you that the work we carry out will be to the highest standard.
- ✓ Thanks for choosing a BASIS Amenity Assured contractor who meets the requirements of the Amenity Standard. By doing this you are helping to drive the amenity industry towards a more professional and sustainable future.
